MEM30305 Certificate III in Engineering - Fabrication Trade (Heavy/Welding YH)

National ID: MEM30305 | State ID: WT77

About this course

Are you looking for a career making and fixing all things mechanical?

When you complete the Certificate III in Engineering - Fabrication Trade (Heavy/Welding YH) you’ll be looking at a trades career as a boilermaker, welder, or fabricator in industries such as mining or construction.

You will gain the skills and knowledge to create and work with metal fabrications, using workshop machines, hand and power tools, metal, gas, flux core, tungsten, arc welding, thermal cutting, measuring, technical drawing, and workplace health and safety.

This course is half price for everyone as part of the Lower Fees, Local Skills initiative. Fees are also capped at $1,200; or $400 if you’re aged 15—24 or eligible for a concession. Find out more about half price fees here.

Please note: Only course tuition fees are half price. You may be required to pay other fees for resources that are specifically needed for your course.
Overview

Training at CRTAFE will be offered with a blended, flexible delivery model to enable social distancing measures during the COVID-19 pandemic. This approach may include a combination of online and classroom based delivery, as well as practical and work experience placements. While the mode of delivery may vary, the content and key learning outcomes of the course will remain the same. Lecturers will provide specific instructions to their student groups on how training will be undertaken and the support available to them.

This course is available as an apprenticeship.

Entrance requirements for apprenticeships

You must be employed in a training contract by an appropriate organisation to study an apprenticeship or traineeship.

An apprenticeship involves full time work with an employer who provides an opportunity to learn all aspects of a trade. This is a structured program for a fixed period of time and while you learn on the job, you also attend off the job training at Central Regional TAFE.

Some of the benefits of an Apprenticeship are that you can:

- Earn a wage while you train
- Learn on the job skills combined with off the job training
- Receive a nationally recognised qualification on successful completion
- Start a valuable step towards a rewarding career path.

Study pathway

Certificate IV in Engineering
Further study opportunities
Central Regional TAFE has many further study opportunities available. Check out our Course Guide for all your future study options.

Job opportunities

Your guide to Australian careers

Job opportunities include: Boilermaker, welder, or fabricator in industries such as mining or construction.

Important information
This qualification has been superseded and is in a transition period.

An apprenticeship is a full time employment based training program usually lasting 3-4 years. It combines on the job learning and scheduled training with a registered training provider such as Central Regional TAFE. This course is offered via an Apprenticeship pathway. Find out more here.

Disclaimer
Courses at Central Regional TAFE are delivered subject to resources and demand. For the latest information, check with the appropriate campus, as course availability may be subject to review and change.

Fees and charges
Find our Indicative Price List here.

At Central Regional TAFE, three types of fees may be charged.

Course Fees
The course fee is determined by multiplying the tuition fee rate by the nominal hours, which is the number of hours in which an average student could be expected to complete each unit.

Resource Fees
Resource fees are charges for materials that are considered essential to a course or unit of study and which do not form part of the course fee. The resource fee covers materials purchased by the College to be consumed or transformed by students in the course of instruction, such as workshop materials, workbooks and essential uniforms.

Other Fees
Other fees may be charged for goods or services that are not essential to the course such as parking, membership to student organisations and security passes. In addition to these fees students may need to purchase textbooks, uniforms and other course specific equipment. Your Pre Enrolment Information package will provide additional information if these are required. 

Please note, fees are subject to change.
