## We help you get to where you want to be in the future, supporting you every step of the way.

Central Regional TAFE industry-experienced staff are dedicated to your success, helping you find a VETDSS pathway or Pre-Apprenticeship in School (PAIS) program that best suits you.

Working closely with industry partners and the community, we provide every opportunity for you to achieve your goals. This ensures Central Regional TAFE training is current, ensuring graduates are highly skilled and ready for the workforce.

### Did you know...?

89.1% of TAFE graduates in Australia were satisfied with their training. #

78% of VET graduates and 82% of graduate apprentices and trainees are employed after training.\*

7/10 occupations predicted to have the greatest jobs growth through to 2025 are accessible via VET ^

\* VET Student Outcomes, NCVET, 2020  
# VET Student Outcomes, NCVET 2021  
^ Apprenticeships for Growth, ISWI 2020

# WHOEVER YOU WANT TO BE.

## Questions to ask yourself

1. **What am I passionate about?**
2. **What are my strengths?**
3. **What careers will allow me to follow my passion and develop my strengths?**
4. **How can I get a better understanding of different career opportunities?**
5. **What job opportunities will there be in the future?**
6. **What qualification will help me get the job I want?**
7. **What are my long-term goals?**

# PATHWAYS

Whatever your career goal is, training at Central Regional TAFE will help you get there, whether it's a Certificate or Diploma qualification, or a Degree and beyond.

Perhaps getting an apprenticeship or traineeship is your goal? By studying a VETDSS qualification, you will have an advantage.

Even if you change your mind along the way, rest-assured the time spent completing your vocational education and training was worth it.

# ABOUT VETDSS

VETDSS Pathways are the perfect introduction into the world of work.

Learn practical skills in Years 11 and 12 while gaining an insight into what to expect in the workplace.

Success in your program can lead to employment or give a head start in other nationally recognised qualifications. Some higher-level qualifications even offer pathways into higher education and university studies.

## VOCATIONAL EDUCATION AND TRAINING DELIVERED TO SECONDARY STUDENTS

VETDSS courses are designed for students who are still at high school but would like to start working or studying in a specific field. You can complete full vocational qualifications in addition to your WACE.

Vocational courses provide training options to progress into the world of work after high school, and offer a different pathway to university, apprenticeships and other higher qualifications.

For more information on how a VET qualification can be a unique and alternative pathway into university, check out the Uni Pathways page: [centralregionaltafe.wa.edu.au/pathways-university](https://centralregionaltafe.wa.edu.au/pathways-university)

Some of our popular courses include:

- (52831WA) *Certificate IV Preparation for Health and Nursing studies*
- (BSB30120) *Certificate III in Business - a school- based Traineeship in Business, a popular way to transition into the workforce or learn valuable work-related skills.*

We work closely with regional secondary schools to offer a wide range of programs including Pre-Apprenticeships in Schools (PAiS) and higher qualifications.

## PRE-APPRENTICESHIPS IN SCHOOLS (PAiS)

PAiS programs see students attend practical and theory based training at Central Regional TAFE (CRTAFE) for two days per week where they are taught by qualified lecturers. Students are also required to participate in work placement which is an excellent opportunity for them to showcase their skills and work readiness to potential employers.

If you're in Year 11 or 12, the PAiS program involves attending school, completing Certificate II Pre-Apprenticeship training at CRTAFE, and completing work placements.

There is no doubt employers look favourably at the candidate who has a proven track record of study, demonstrated the capacity to apply themselves to a formal TAFE course and understands the practices and terminology associated with the trade in question.

# 2023 ENTRANCE REQUIREMENTS

## FEES & CHARGES

Secondary school students participating in a VETDSS program as part of their secondary education are exempt from course and resource fees, however, depending on the chosen course, students may be required to purchase protective clothing, uniforms, text books, USBs, student cards and equipment at their own cost.

Specific information regarding fees and charges (if required) will be outlined for each qualification.

## HOW TO APPLY

A student may select the course they want to study in conjunction with their parent/guardian and School VET Coordinator, who will issue the required application form.

Applicants are required to attach:

- Copies of most recent school reports;

- Letter of application; and
- Any supporting documentation (for example, work placement reports, references, awards).

After completing the application form, ensure you and your parent/guardian sign and return the form to your Schools' VET Coordinator.

## DATES

All applications for 2023 programs must be submitted via the CRTAFE website enrolment portal by Friday 2 September 2022. The next orientation session is January 2023.

An interview will be conducted shortly after to determine successful applicants for each program.

Successful students will be notified by their School's VET Coordinator in Term Four (and invited to attend an orientation session at the CRTAFE campus in January 2023).

# INFO FOR PARENTS GUARDIANS & STUDENTS

## INDUCTION & ATTENDANCE

The student orientation day provides students with further information about scheduled classes, activities and a chance to meet the lecturer and have a tour around campus.

Students are responsible for ensuring their attendance in class and notifying their CRTAFE lecturers if unable to attend or they're running late.

Every class records attendance. All absences are sent to parents via SMS message and communicated to the student's school on the same day. Repeated absences may result in a school being contacted regarding a student's continuation in the program.

## CLASSROOM & TAFE ENVIRONMENT

CRTAFE is an adult learning environment with a focus on developing skills and knowledge to the standard required in the workplace. This means:

- Students are responsible for their own learning and are expected to manage their workload, seeking assistance from lecturers when needed.
- Learning activities at CRTAFE are not limited to lessons in a classroom environment and may include: lectures, tutorials, online learning, work placements, assessments, research, project work, group work or workshops.
- Course hours include a wide range of delivery and assessment activities and may not always be used for classroom teaching.
- Students under 18 years of age share

CRTAFE facilities such as the library, canteen, and computer labs with adult students.

- Some courses are delivered across more than one campus or involve a workplace. Parents/guardians are responsible for their child's travel arrangements to and from the TAFE campus or workplace.
- Students may be required to complete assessment tasks/assignments outside of their scheduled timetable. Some of these assessment tasks/assignments are undertaken in the community.

## SUPERVISION

While attending CRTAFE, you are under the supervision of your lecturer taking the class. You will not be supervised during break times. You are expected to remain within the College grounds unless you provide your lecturer with written notification from a parent or the school that you intend to leave the College earlier than the advertised class finish time.

## EXCURSIONS

CRTAFE provides parents/guardians with information on excursions prior to the event. Written parental consent will be sought for students under 18 to participate in excursions away from CRTAFE premises. If parental consent is not given, your child will not be able to attend the excursion and CRTAFE will not provide an alternative supervised activity. Students may be required to make their own way to excursions. In these situations parents/guardians will be responsible for organising transport to and from excursions.

## HEALTH & SAFETY

CRTAFE strives to provide an environment that supports the health and well-being of all students by:

- Following the relevant OSH policy, guidelines and practices.
- Providing designated first-aid officers, available to students at all campuses.
- Providing assistance and if necessary, arranging for qualified medical personnel in case of an emergency.
- Promoting a friendly and inclusive environment where bullying or any form of harassment are not accepted. Any student experiencing bullying or harassment of any kind should inform a CRTAFE staff member immediately.
- Ensuring all relevant staff have a Working with Children Check subject to the Working with Children (Criminal Record Checking) Act 2004.
- Implementing the Emergency Response Plan in case of an emergency.

- Providing parents/guardians with a copy of an Accident/Incident report if their child is seriously injured.

## INSURANCE

Students are not covered for Personal Accident or any loss or damage to property whilst on a CRTAFE campus.

However, CRTAFE does hold cover with the Insurance Commission of WA (RiskCover) that provides Personal Accident cover for students who are undertaking unpaid work experience that is allocated or arranged by CRTAFE. Personal Accident cover is also extended to those students attending any official College camp, excursion, trip or other off campus activity (excluding sports days other than interstate sporting events, carnivals or national championships) which is approved and organised by CRTAFE.

The responsibility is placed on parents/guardians in relation to whether they arrange their own Personal Accident insurance or private health cover for their child if they believe CRTAFE coverage is not adequate.

# VETDSS HIGHER LEVEL QUALIFICATIONS

*Finish school with the freedom of TAFE.  
Freedom starts here.*

**Graduating secondary school with one or more qualifications will improve your employment opportunities**

# BUSINESS

## BSB30120 | Certificate III in Business

Be in high demand with skills that could take you anywhere. Industry and government forecast a high demand for office workers, and with a Certificate III in Business, you will be ready to be recruited.

You will learn skills and knowledge in basic MYOB, workplace organisation, customer service, workplace health and safety, desktop publishing, spreadsheets, creating electronic presentations and much more.

On completion you will be ideal for roles in data entry, customer service, accounts or as an office clerk. Gain skills in:

- Organising tasks
- Managing workplace information
- Producing business documents
- Delivering customer service
- Communicating effectively, and
- Fostering innovation and change

<b>COST</b>	Uniform - \$40.00 (approx.)	<b>DURATION</b>	One (1) year program, one (1) day per week
<b>UNIFORM REQUIREMENTS</b>	CRTAFE student polo shirt	<b>WORK PLACEMENT REQUIREMENTS</b>	NIL
<b>CAREER OPPORTUNITIES</b>	Administration Assistant, Personal Assistant, Clerical Worker, Data Entry Operator, Information Desk Clerk, Office Junior Receptionist	<b>COURSE PATHWAYS</b>	BSB40120   Certificate IV in Business

BSB30220 | Certificate III in  
**Entrepreneurship and New Business**

How great would it be to build your own business from the ground up! Imagine being your own boss with financial independence.

If these appeal to you then this course is perfect for you. This qualification introduces you to the entrepreneurial journey, from creating an idea to equipping you with the know-how to gain traction in the marketplace.

This course is perfect for those who have a

hobby or part-time gig that could take off, providing you with the opportunity to explore its potential.

You will learn:

- How to raise capital for your venture
- Research ideas and refine a business strategy
- How entrepreneurs and their investors make financial decisions to grow their operations

<b>COST</b>	Uniform - \$45.00 (approx.)	<b>DURATION</b>	One (1) year program, one (1) day per week

<b>CAREER OPPORTUNITIES</b>	Event or Exhibition Assistant, Conference Assistant, Venue Assistant, In-House Functions Assistant, Junior Event or Exhibition Coordinator	<b>COURSE PATHWAYS</b>	SIT30616   Certificate III in Hospitality SIT40416   Certificate IV in Hospitality SIT30116   Certificate III in Tourism SIT40116   Certificate IV in Travel and Tourism

# SCIENCE

## MSL30118 | Certificate III in Laboratory Skills

If you are a budding mad scientist, then this is the course for you. Learn how to perform technical tasks, including preparing and testing samples using Australian Standards.

Work both in the field and laboratory and use leading-edge testing equipment to process and record data.

This course will equip you with the knowledge and skills to perform roles such as a Laboratory or Environmental Technician for a variety of industries, including the mining sector, pathology labs, conservation and land

management, forensic labs, marine science and research institutes.

For those students looking for an alternative pathway to University, this program is an excellent and practical starting point.

CRTAFE can offer post-school programs leading on from this qualification to help you gain entry to University with advanced standing.

<b>COST</b>	Uniform \$40.00 (approx.)	<b>DURATION</b>	One (1) year program, one (1) day per week
<b>UNIFORM REQUIREMENTS</b>	CRTAFE student polo shirt Enclosed shoes (safety boots) Hat	<b>WORK PLACEMENT REQUIREMENTS</b>	NIL
<b>CAREER OPPORTUNITIES</b>	Employment outcomes targeted by this qualification include Laboratory Technicians, Environmental Technician, Instrument Operator and similar personnel.	<b>COURSE PATHWAYS</b>	MSL40118   Certificate IV in Laboratory Techniques MSS40218   Certificate IV in Environmental Monitoring and Technology

# ALLIED HEALTH

## HLT33015 | Certificate III in Allied Health Assistance

Does a future in health services interest you? This is a growing field, with Allied Health Specialists forecast to grow by 22% over the next three years.

Join this growing sector and assist allied health professionals. Specialisation areas include dietetics, occupational therapy, physiotherapy, speech therapy, or podiatry services.

This qualification equips you with the communications skills to work in health and community services.

Learn skills in:

- How to recognise healthy body systems

- Interpret and apply medical technology
- Assist with an Allied Health Program

This qualification equips you with the communications skills to work in health and community services.

Students will be required to undergo health and legal screening prior to attending placement, such as: National Police Clearance, Education Department Police Screening, Health Department Police Screening.

Some vaccinations may be required depending on your placement agency. For example: Influenza vaccination plus other vaccinations or screening as required.

<b>COST</b>	NIL	<b>DURATION</b>	One and a half (1.5) years program, one (1) day per week
<b>UNIFORM REQUIREMENTS</b>	CRTAFE student polo shirt	<b>WORK PLACEMENT REQUIREMENTS</b>	80 hrs
<b>CAREER OPPORTUNITIES</b>	Hospital Orderly Nursing Support Worker Personal Care Assistant Therapy Aide	<b>COURSE PATHWAYS</b>	HLT54115   Diploma of Nursing HLT43015   Certificate IV in Allied Health Assistance (Physiotherapy / Occupational Therapy)

# HEALTH & NURSING

## 52831WA | Certificate IV in Preparation for Health and Nursing Studies

This course is designed to give students wanting to enter a nursing and health program a competitive edge.

Gain the knowledge and skills to transition into studying at a Diploma level in the future. This course will develop your knowledge in anatomy and physiology, microbiology, medical terminology, applied mathematics, physics and chemistry.

Upon completion, you will be eligible for entry into (HLT54115) Diploma of Nursing and other health programs. Please note: there are additional requirements for entrance into the (HLT54115) Diploma of Nursing qualification.

Refer to the course information for the Diploma of Nursing for more information.

<b>COST</b>	Uniform \$40.00 (approx.)	<b>DURATION</b>	One and a half (1.5) years in duration / One (1) day per week (finishing Term 2 2023)
<b>UNIFORM REQUIREMENTS</b>	CRTAFE student polo shirt	<b>WORK PLACEMENT REQUIREMENTS</b>	NIL
<b>CAREER OPPORTUNITIES</b>	Prepare for a career in health or nursing related occupations (after further study)	<b>COURSE PATHWAYS</b>	HLT54115   Diploma of Nursing Registered Nursing following study at University

# EDUCATION

## CHC30121 | Certificate III in Early Childhood Education and Care

If you're looking to work in the exciting and rewarding children's services industry, then this nationally accredited qualification is for you. It will give you industry exposure and a strong theoretical and practical foundation and ensure you achieve the high levels of professionalism needed to excel in the childcare industry.

Gain skills in caring for children, applying health and hygiene principles, understanding legal and ethical requirements, providing nutritional needs for babies and children, developing and implementing play experiences, understanding

child development stages, working with families and working effectively in a team environment.

Upon completion of Certificate III in Early Childhood Education and Care, you will be eligible to enrol into the (CHC50121) Diploma of Early Childhood Education and Care. This program is also an alternative pathway to University.

# ENGINEERING

MEM20105 - AA50 | Certificate II in

## Engineering - Pre-Apprenticeship Heavy Fabrication

If you are looking for a trade with many different employment opportunities, this qualification is a fantastic starting point. You will learn mechanical cutting, thermal cutting, gouging and welding.

After successful completion of this qualification, you may choose to become a trade assistant or progress to an Apprenticeship in a wide variety of fields, including; Fabrication - Heavy (Boilermaker); Light (Sheetmetal); Welder or Heavy/Welder and Fitting and Machining.

This qualification provides practical skills and knowledge in a range of metals and engineering industry areas. You will also learn about safety in the workplace, computing and maths and practice the skills you have learned in a workshop environment. The skills packaging for the qualification has been designed on the assumption that

competency will be developed through a combination of on and off-the-job learning strategies, such as those delivered through a formal traineeship.

This course is an excellent opportunity to experience an insight into becoming a Fabricator or Fitter and Machinist.

Units completed may assist you in gaining employment as an apprentice.

Gain skills in:

- Using tools
- Measuring and calculating
- Technical drawing and drafting
- Load shifting
- Thermal cutting
- Using forging and casting equipment
- Welding

<b>COST</b>	Text books - \$150.00 (approx.) Uniform - \$TBA First Aid Certificate - \$20.00	<b>DURATION</b>	One (1) year program, two (2) days per week
<b>UNIFORM REQUIREMENTS</b>	Long drill trousers (navy blue) and short (or long) sleeved drill shirt (hi-vis orange & blue) Steel capped boots that comply with Australian Safety Standards Safety glasses (first pair supplied by CRTAFE)	<b>WORK PLACEMENT REQUIREMENTS</b>	120 hours (approx.)
<b>CAREER OPPORTUNITIES</b>	Successful completion of this qualification provides you with the opportunity to become a Trade Assistant. This course is a pathway to Certificate III in Engineering which is an apprenticeship course. You will need to be employed and registered as an apprentice/trainee before you can commence apprenticeship/traineeship training.	<b>COURSE PATHWAYS</b>	Certificate III Engineering qualifications and streams such as: MEM30219   Mechanical Trade MEM30319   Fabrication Trade Or an apprenticeship/traineeship

# ELECTROTECHNOLOGY

UEE22011 - AA41 | Certificate II in

## Electrotechnology (Career Start) Pre-Apprenticeship

Completion of an Electrotechnology Pre-Apprenticeship provides the skills employers are looking for as an apprentice in the electrical, instrumentation or electrical servicing trades.

You will gain the knowledge and practical skills to work effectively in the construction industry, use hand and power tools, interpret drawings, take electrical and electronic

measurements and soldering components.

Gain skills in basic electrical tasks such as:

- Basic electrical maintenance, such as attaching wall mounted electrical outlets
- Using hand and power tools
- Solving problems in DC circuits
- Working safely in an electrical workplace

<b>COST</b>	Basic tool kit - \$120 (approx.) Uniform - \$TBA First Aid Certificate - \$20.00 Training Electrical Licence \$76.00	<b>DURATION</b>	One (1) year program, two (2) days per week

<b>CAREER OPPORTUNITIES</b>	Assistant Fashion Designer Textile Print Designer	<b>COURSE PATHWAYS</b>	Students can go on to study specialised fields in various creative arts and design qualifications

# COMMUNITY SERVICES

## CHC22015 | Certificate II in Community Services

Do you have a passion for working with those in need and making a positive impact? Community service workers provide support to individuals, groups and communities and work with them to identify what social, emotional, psychological, practical and other supports they may need to face life's difficulties and challenges.

They encourage and assist people to access services and advocate for social justice. Community service workers have a powerful impact on the lives of individuals and on the way our society deals with social changes, challenges and issues.

This qualification may be a pathway into the workforce, which currently is a growth area. It can also be a step into further studies such as aged care, community, disability, youth or home and community care.

You will be prepared to work in roles where you will:

- support individuals by providing a first point of contact in a crisis situation and referral to a broad range of services, or
- work in residential facilities and/or in community services under direct or regular supervision within clearly defined organisation guidelines and service plans.

Those who work at this level:

- may provide assistance and support to clients accessing a service or experiencing issues such as alcohol and/or other drug issues
- assist people in meeting their immediate needs e.g. by providing shelter and food
- provide short-term contact with clients in a crisis situation during which time they

- establish a helping relationship to define the crisis and provide referral information where appropriate
- may provide ancillary services such as catering, cleaning, laundry, gardening and home maintenance
- report directly to a supervisor and are not responsible for other workers.

<b>COST</b>	Uniform - \$40.00 (approx.)	<b>DURATION</b>	One (1) year, one (1) day per week
<b>UNIFORM REQUIREMENTS</b>	CRTAFE student polo shirt	<b>WORK PLACEMENT REQUIREMENTS</b>	Throughout the duration of the course students will be required to attend one day a week of placement. Minimum of 40 hours are required.
<b>CAREER OPPORTUNITIES</b>	Successful completion of this qualification provides you with the opportunity to become an Assistant Community Services Worker, Personal Care Assistant, Front Desk Officer / Receptionist, Support Worker, Youth Worker or a Residential Support Worker.	<b>COURSE PATHWAYS</b>	CHC32015   Certificate III in Community Services CHC33015   Certificate III in Individual Support
