

Central Regional TAFE – STAFF CRT-BYOD Wi-Fi Guide

While on campus staff can access the **CRT-BYOD** Wi-Fi with their own devices and connect to the internet. This guide will cover commonly used devices. We cannot guarantee it will be compatible with all the devices.

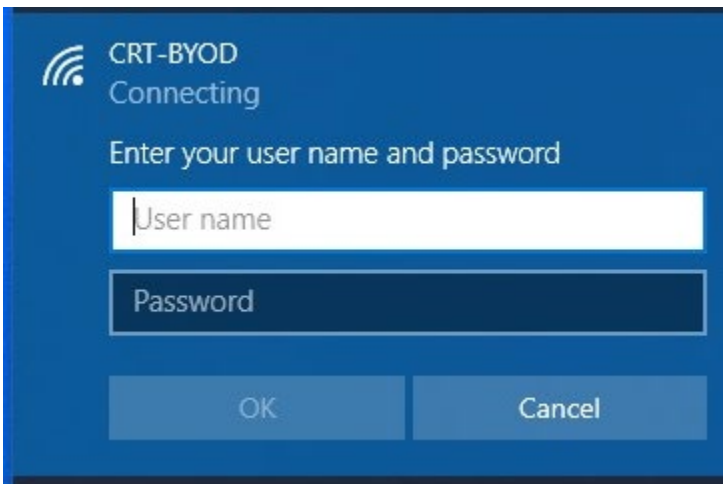

If you are newly employed or recently received a password reset, you will need to setup your own password before connecting to CRT-BYOD Wi-Fi. This can be done through office.com or login to an on-site staff or student PC.

Windows Devices

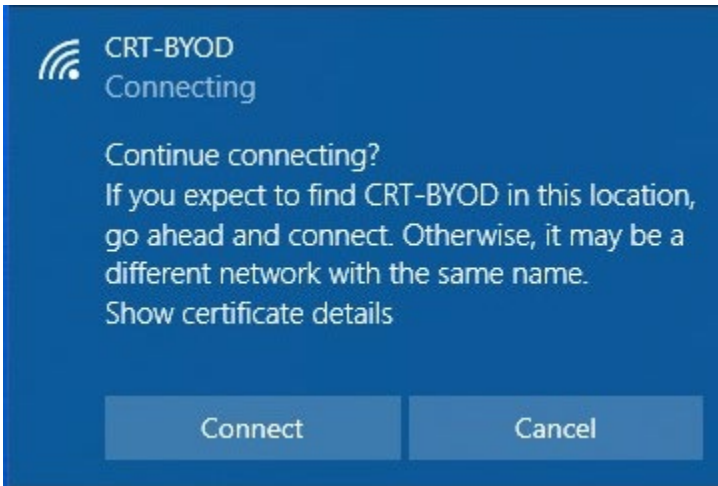

1. Open the Network Connections on your task bar.
2. Click On **CRT-BYOD** then **Connect**.

3. Enter your staff ID number (eg. 800XXXX) and password.

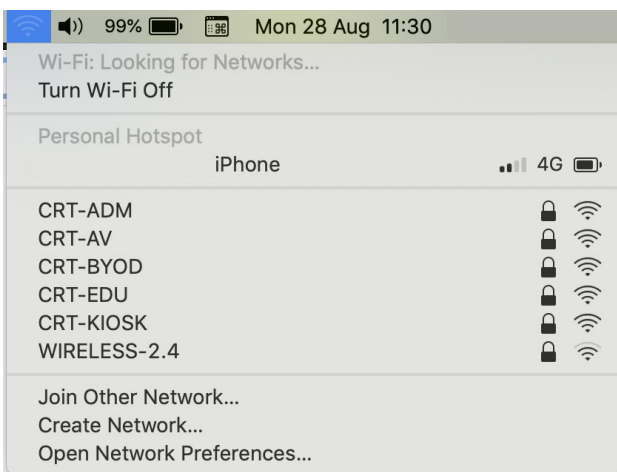

4. Click **“Connect”** on any warnings.

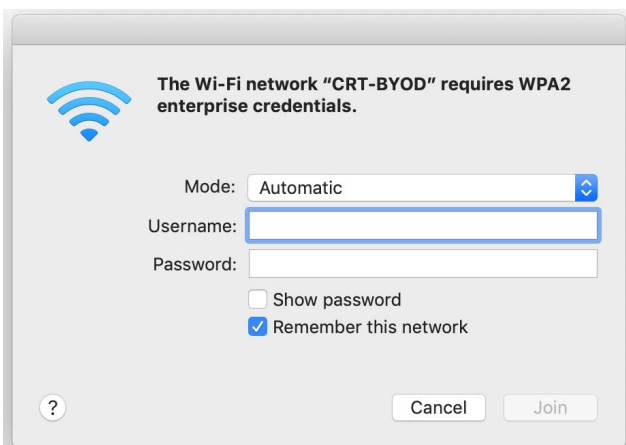

5. CONNECTION COMPLETE. Steps 1 to 4 will be remembered by your device unless your password expires or changes. You will need to re-login to connect again.

Apple Devices (MAC)

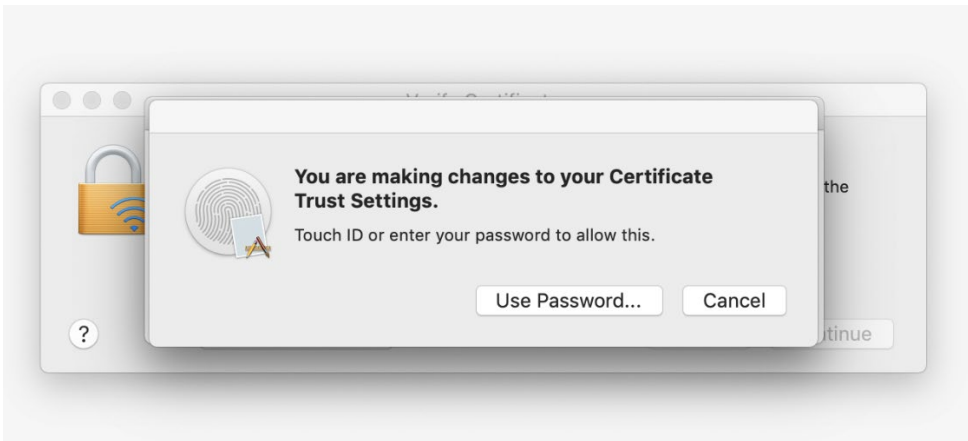

1. On your Mac, click the Wi-Fi icon  in the menu bar.
2. Choose **CRT-BYOD**.

3. Enter your staff ID number (eg. 800XXXX) and password.

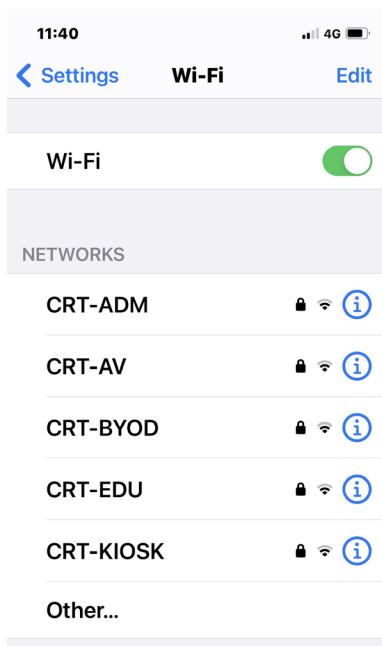

4. Press **Continue** on the Verify Certificate message. This is required for CRT-BYOD to work on Apple devices. You will be prompted to enter your device password.

5. Once step 4 is completed, you will be connected to CRT-BYOD Wi-Fi.

Apple Devices (iPhone / iPad)

1. Go to **Settings > Wi-Fi** and look for **CRT-BYOD**.

- Click on **CRT-BYOD** and enter your staff ID number (eg. 800XXXX) and password. Press **Join**.

Enter the password for "CRT-BYOD"

Android Devices

1. On your Android Device Go To your **Wi-fi settings**. Each device is different. You will find the Wi-Fi settings under **Settings > Network & Internet** or **Settings > Connections**. Please click on **CRT-BYOD** Wi-Fi.

2. Enter your staff ID number (eg. 800XXXX) and password.
For the **CA certificate**, please select **Don't validate**. Some stock Android devices do not have this option. If you cannot see this option, the device will not connect to CRT-BYOD Wi-Fi.

3. Press **Connect** and you will be connected to **CRT-BYOD** Wi-Fi.
