## Current students

### How do I log-in to Student Portal?

When you first register you will receive email confirmation of your ID. Keep this information somewhere safe so you can use it to login again in the future.

The instructions below will only work once you have formally enrolled in a course.

**Student ID number**

**Domain must be ID**

The screenshot shows the CiAnywhere login interface. At the top, it says 'CiAnywhere Any device. Any where. Any time.' Below this is a section titled 'Log on using your details'. There are three input fields: the first contains the number '50000000', the second contains a masked password '.....', and the third is a dropdown menu with 'ID' selected. A 'Log on' button is below the fields, and a 'Keep me logged on' checkbox is at the bottom. Red boxes and arrows highlight the ID number field, the password field, and the domain dropdown menu.

### Default password

Continue to use the password you have used before.
