New Students

How do I log-in to Student Portal?

Student ID number

Domain must be ID

The screenshot shows the CiAnywhere login interface. At the top, it says 'CiAnywhere Any device. Any where. Any time.' Below this is the heading 'Log on using your details'. There are three input fields: the first contains the number '50000000', the second is a password field with dots and is highlighted in yellow, and the third is a dropdown menu currently showing 'ID'. A 'Log on' button is below the fields, and a 'Keep me logged on' checkbox is at the bottom left. Red lines with arrows point from the text labels above to the corresponding fields: 'Student ID number' points to the first field, 'Domain must be ID' points to the dropdown menu, and a line from the yellow highlight points to the password field.

Default password

As shown on the offer letter to new students the default password is date of birth in DDMMYYYY i.e. 01021981 **UNLESS** at the time of application a student sets a password.
